ENTHUSIASTIC CROWD GATHERS FOR DEMOCRATIC RALLY

County Seat Crowded With Democrats From Over County to Hear Hon. Kincheloe

MRS. CASTLEMAN SPEAKS

The Democratic Rally held in Hardinsburg, Saturday afternoon stands apart from any other political rallies held in the county in two respects: First, it was the first political rally ever held in Breckinridge county where a woman addressed the meeting, and secondly it is the first political meeting where women have attended since they have been given equal rights with men.

Enthusiasts of the Democratic party from all over the county, many of whom were women, gathered at one o'clock in the court room of the county court house, and by 1:30 there

MINERS STRIKE AFFECTS C'PORT

Cloverport Light Co., Without Coal and Several Business Concerns Handicapped.

Cloverport has been seriously affected by the Western Kentucky coal miners strike, in that the Cloverport Light and Ice Company is without sufficient coal to furnish day current. Since last Wednesday morning the Light Company has only furnished current from 5:30 p. m. to 9 p. m. each night, and the business concerns of the city who are dependent upon the company for day current have had to practically suspend business for the time being.

Those who are furnished day current for motor power are D. B. Phelps Button Factory, Squires and Bandy Flour Mill and The Breckinridge News office. The Light Company furnishes the L. H. & St. L. R. R. shops with current for lights at night, but the shops has resorted to its own power plant.

Small Supply of Coal.

The Light Company is supplied with coal from the Western Kentucky mines and a carload of coal is consumed in 4 days. All during the spring and summer the company has only been able to get a carload of coal at a time. By running about three hours every evening, the company has been able to furnish street lights and for the houses during the coal shortage.

WOMEN APPOINTED ON CEMETERY COMMITTEE

Mrs. F. C. English Made Chairman of the Permanent Organization.

The directors of the Cloverport cemetery committee met last Tuesday and appointed eight women of the city on a committee to have the cemetery lot cleaned right away, and to remain a permanent organization for the purpose of improving and having the cemetery well kept throughout the year.

The women appointed were: Mrs. F. C. English, chairman; Miss Elizabeth Skillman secretary and treasurer; Mrs. Chas. E. Lightfoot, Mrs. Thos. J. Ferry, Mrs. Shelby Conrad, Mrs. Ben Ridgeway, Mrs. R. L. Oelze and Miss Jane Warfield.

The committee held a meeting on Tuesday afternoon and considered plans for improvement of the cemetery.

GOES TO GEORGETOWN

Rev. Byron D. S. DeJarnette had a large congregation at Ammons on Saturday evening and Sunday morning. Rev. DeJarnette left from his home in Hardinsburg, Monday morning for Georgetown, Ky., where he will enter his second year in the Georgetown College.

It does not matter now whether we are of the women who have achieved suffrage or of those who have had it thrust upon us. What does matter is the use we shall make of it. The privilege is ours and the responsibility is one that we must assume. Woman's advent in the turmoil of politics comes at a critical period; a crisis in the world's history.

Woman has ever shown efficiency in her traditional functions of wife, mother, sister, wage earner and member of society and now that the keen edged little tool, the ballot has been given to her, she has opportunity to carry her rich experience as home maker and conservator of the ideals of the race into the concerns of her

ACCIDENTS CLAIM FOUR TIMES AS MANY AS WAR.

Chicago, Sept. 7.—Every year about one-tenth of the total population of the United States falls down stairs, gets run over, trips into open manholes, leans too far out the window, peers into a gun that is supposed to be unloaded or, to cut is short, drowns. The result is that 11,037,000 persons are injured every year. Altogether 10,000 are killed accidentally every year. All of which and more came to light to-day at the Health and Accident Underwriters' conference at the Hotel La Salle.

During the war 31,000 Americans were killed in battle, whereas right at home with no battle going on 126,000 Americans died of accidents during the same period, according to figures produced at the conference.

LIQUID COAL MAY BE USED NEXT

Members American Chemical Society Find Way to Utilize Lignite and Petroleum.

Members of the American chemical Society who held their sixtieth annual convention in Chicago last week, reported that it was not a far fetched statement to say that liquid coal is the next fuel for the home, factory and transportation. They believe the time is not far off when the housewife will call her fuel dealer and say: "Please send me a hundred gallons of coal."

A fuel that was used very successfully during the war was known to chemists as a "colloidal fuel," and this, they think, will be used commercially. The liquid coal is made from lignite of which there are extensive deposits in Illinois mines. By a certain process heretofore kept secret during the war, this coal, which is something like pea and which has been considered refuse, may be combined with petroleum. The particles are suspended in the liquid by colloid chemistry and it is burned like oil.

Both the refuse petroleum and the lignite are considered worthless now, but combined form a very valuable fuel.

NEWSPRINT BOOSTED FROM \$115 TO \$130.

New York, Sept. 3.—The international Paper company announced today that the price for newsprint in rolls for the last quarter of 1920 will be \$6.50 for 100 pounds, or \$130 a ton. The price for the current quarter is \$115 a ton.

Contract prices for newsprint furnished by the company are adjusted each quarter; the price to be charged being based on costs of production. The price for the first quarter this year was \$90 and for the second quarter \$100.

The price of \$130 a ton for the final quarter of the year makes the International Paper company's quotation the same as that of the Canadian Export Paper association, which handles the greatest part of paper shipments from Canada.

HIGHWAY COMMISSIONER SUE TO WORK CONVICTS ON ROAD

Frankfort, Sept. 9.—The State Highway commission will file suit this week against the state board of charities and corrections to compel the board to furnish the commission 250 convicts to be used on the public highways.

Recently the commission authorized Joe S. Boggs, state highway engineer, to purchase equipment for 500 convicts, to be employed in road work. Engineer Boggs made requisition on the state board of charities and corrections for the convicts, but the board declined to comply with the requisition on the grounds that the men were not available.

It is the intention of the state highway commission to maintain the road camps in winter and to work 500 men the year round.

BOSTON FINANCIAL WIZARD IS BANKRUPT.

Boston, Sept. 8.—Charles Ponzi is hopelessly bankrupt. William R. Sears chairman of the Federal receivers for the get rich quick promoter, announced at a hearing in the United States District Court today. The court appointed James M. Olmstead, referee in bankruptcy, to coordinate all bankruptcy proceedings now pending against Ponzi, and to determine among other things whether he had any partners in the Securities Exchange Company, in which from \$5,000,000 to \$7,000,000 of investments are tied up.

Counsel for Ponzi was assured by the court that the case would go to jury trial after the referee had finished this inquiry.

U. S. BEST SOURCE FOR BUYERS OF PURE BRED.

Foreign Breeders Find America Has Greatest Number Pure Bred Herds

Buyers of pure-bred live stock throughout the world are coming in increasing numbers to the United States, according to the Bureau of Markets of the United States Department of Agriculture. Foreign breeders now find in this country the greatest number of pure-bred herds, all breeds being well represented, and are assured of every facility for obtaining exactly the animals desired.

For many years breeders in the United States have been importing the finest animals from other countries, and by the most rigid selection in keen competition with other breeders have developed pure-bred live stock until now the live stock industry in this country is not surpassed by any other country in the world. In recent years animals bred in the United States have repeatedly won in open competition against imported animals at the leading live-stock shows and expositions.

PARIS SWEATS AT THOUGHT OF COLD.

Paris, Aug. 31.—New ideas for economizing coal and other fuel are sought by the authorities and 100,000 francs in prizes have been offered by the Seine Department for ideas and inventions this fall. Under the provisions of the Spa Conference agreement, France will have, from all sources, slightly less than 80 per cent of her needs in coal and now in the heat of summer, the people are beginning to worry about the shivers of the coming winter.

KEEPING ALUMIUM BRIGHT

Aluminum does not tarnish easily in ordinary use, but one caution should be observed in cleaning. Alkaline discolor aluminum; therefore it should not be washed with strong soap, nor should scouring powders containing free alkali be used on it. Discoloration on aluminum may be rubbed off with whiting or fine steel wool (grade 00), or dissolved by the acid in vinegar, or by dilute oxalic acid. These acids must be thoroughly washed off the aluminum. Some special preparations for cleaning aluminum are on the market.

Lens and Mirror Send Sun's Rays Down Diseased Throat.

In several tuberculosis sanatoriums of the United States there is now being used a little instrument of glass and steel that reflects the sun's rays down the patient's throat and larynx, and so hastens the destruction of the bacilli, says Popular Mechanics Magazine in an illustrated article in its September issue. To use the instrument, the patient faces the sun, and places the tube between his lips, lens outward.

FIGHT INSECTS NOW WITH PLOW

Most Universally Effective Way of Controlling Insect Pests.

Fall plowing is the most universally effective way of controlling the insect pests that annually cause great losses to the grain farmer. It is much easier and cheaper, says the Bureau of Entomology, United States Department of Agriculture, to prevent an insect outbreak in this manner than it is to stamp out the infestation once it is fully developed. The Hessian fly, so destructive to wheat, is one of the insects that can hardly be eradicated once it is established in the crop. Fall plowing is recommended because it breaks up the soil and destroys the grubs and pupae of many insects by exposing them to the sun and air.

Farmers' Bulletin #35, prepared by the Bureau of Entomology, tells how to control the most common and dangerous of the grain farmer's insect enemies. It gives briefly the life histories of the Hessian fly, army worm, cutworms, grasshoppers, white grubs, billbugs, corn-root aphids, and wireworms, with authoritative data describing the characteristics of each

pest and the best practical remedies for control. The bureau advises the grain farmer to plow in the fall, if possible; to keep a supply of insecticides and a spray outfit on hand; to watch the crops carefully for an outbreak, and to report all outbreaks to the county farm adviser, or direct to the Bureau of Entomology, United States Department of Agriculture.

TELEGRAPHER FINDS RAINBOW'S END IN TEXAS

F. L. Moorman, Former Cloverport Boy, Considered One Most Successful Oil Men in Texas.

Naturally in Fort Worth, the center of the great oil development in the state of Texas, the fortunes distributed by the magic wand of oil are seen on every hand—and are rather the usual comes to light occasionally and in this particular case concerns F. L. Moorman, who before the great war worked on various railroads over the country in capacity of telegraph operator.

At the conclusion of the war, after spending a year in the combative areas of France, Moorman returned to this country and was immediately drawn to Texas by the great oil development then existing. In just a little over one year's time in the oil fields, without any friend's "pull" or financial backing of any kind, Moorman has accumulated, according to reports, a cool, clean fortune running out to the six figure column on the adding machine.

He first came into prominence by successfully financing a two million dollar oil company in about six months, thereby breaking some enviable records for raising money in a short time. He is now the active head of a 20,000-acre lease syndicate, which is but one of his many interests in the development of Texas oil.

At the age of 28 years Moorman is probably one of the most successful oil men of his age in the state.

To meet him, from all appearances any person would hardly believe from his quiet manner that he has attained so much within such a short period of time, actually arriving here just about flat "broke" one year ago.—Texas Oil Gazette.

SAMPLE

And still plenty of rain.

School opened here Monday, Miss Lena Pacely, teacher from Yanketown, Ind.

The meeting closed here the first Sunday with all day service. A large crowd and plenty of dinner on ground. Mrs. R. W. Huntsman spent the week at this place.

Mr. Fred Miller left last week to work with the steam shovel at Hawesville.

Quite a crowd from Stephensport, spent Sunday at Sample.

POOR DOG

So often we call a man a dog when we want to reproach him. And yet, a dog

Doesn't lie,
Doesn't swear,
Doesn't drink,
Doesn't cheat,
Doesn't swindle,
Doesn't smoke,
Doesn't flirt,
Doesn't pretend,
Doesn't borrow,
And wouldn't even resent it if you called him a man.

Remember! Many a dog is considered mad when he is only thirsty.

Mr. J. R. Mitchell, of Mooleyville, has raised butter beans this summer that are so large according to Mr. Mitchell's statement, that one bean is enough for a meal. He has one vine that has 14 beans on it 36 to 49 inches in length, and weighed from ten to eighteen pounds. They were raised from Australian butter bean seed.

FAKE SOLICITOR FOR ARMENIA

County Chairman of Near East Relief Work Warns People of Breckinridge County Against "Polus"

"A man by the name of Polus is representing himself as being authorized by officers of the National office of Near East Relief to solicit funds for the starving people whom we are endeavoring to help.

Please remember at all times that no one except the County Chairman and those she may appoint are authorized in any way to collect for the cause, and any one proposing to have credentials—no matter how genuine they seem to be—is a fraud, and should be apprehended.

"If this man Polus or any other person solicits funds for Armenia, Syria or any countries of the Near East, please have him arrested and notify the New York office by wire and proper action will be taken, before they are released.

"Now friend, of the cause in Breckinridge, be on the outlook for any Turk or other villain who approaches you on this subject.

"Miss Edith Burn, Cloverport, Mrs. Roland Smith, Stephensport; Mrs. H. Leathers, Louisville. On with the clothing the naked! Sincerely, Tuta C. Daniels, County Chairman, Hardinsburg, Sept. 1920.

IN MEMORIAM

On Sunday, July 18th, 1920, Bro. J. T. Jones fell asleep in Jesus at his home in Glen Dean, Ky., after a lingering illness of five months duration.

He was patient thro' all of his suffering, and very appreciative of all that was done for him, by his loved ones, friends, doctors and nurses. He seemed to be in the spirit of prayer continually while he was sick. His loved ones, friends and pastor prayed very earnestly, that if it was God's will he might be spared, but God in His infinite wisdom knew best when to take him home.

Bro. Jones was born, reared and lived his life in Breckinridge county. He was a merchant for twenty-five or thirty years. He was a favorite of the wholesale men with whom he dealt, because of his friendly, sociable, jovial disposition.

He was a man who was very kind, faithful and loyal to his friends, and he was very charitable with them when they needed charity, or help in any way. He had many friends.

He was married to Miss Kate Butler, Nov. 14th 1900. He was a faithful, kind, devoted and affectionate husband, and their companionship was very happy. The memories which linger are sweet and precious. Bro. Jones made a profession of his faith in Christ and united with the Baptist church at Glen Dean, seven years ago and lived a consistent happy and useful life.

Besides his wife he left two sisters and three brothers.

To these loved ones we would say there is comfort alone in the God whom he loved, the Christ he trusted and the Divine Spirit, who was his comforter.

E. B. English, Pastor.

INFANT BURIED HERE

The remains of Majorie Gipson, four months old daughter of Mr. and Mrs. Jesse Gipson, of Hawesville, were brought here Thursday morning for interment in the Cloverport cemetery. The child was ill only a few days of fever.

Mr. Gipson is a nephew of Mr. Will Gipson and Mr. J. B. Gipson, of this city.

THE CHILD

We see him so round and so warm,
Such beauty and joy in his frolicsome form;
We think of the wisdom he has to acquire,
The road he must travel, the thorns and the mire;

His days are so happy, such bliss fills his cup
We sigh, "What a pity he has to grow up."

He sees us self-satisfied pompous with care,
And taking ourselves with a serious air;
He notes all the wisdom we have to unlearn
Before to our proper estate we return,
And so we imagine he sighs with a frown;
"Dear me, what a pity they have to grow down."

—McLandburg Wilson.

Enthusiastic Crowd At Democratic Rally

(Continued From Page 1)

James M. Cox

was standing room only. The crowd was estimated at seven or eight hundred people. Scores of persons were disappointed in not getting to hear the speakers owing to lack of room.

The court room evidenced the touch of a woman's hand. There were beautiful flowers arranged on the speakers' table. Arnolds Military band opened the meeting with a selection and the whole atmosphere was filled with enthusiasm.

Mrs. Castleman Speaks.

Attorney D. C. Walls, of Hardinsburg, presided at the meeting. He introduced the first speaker who was Judge Henry DeHaven Moorman. Judge Moorman made a brief speech in which he presented the next speaker, Mrs. Jno. Castleman, of Louisville, an ardent worker for woman's rights and a supporter of the Democratic platform. After the introduction she was presented with a handsome bouquet of asters.

Mrs. Castleman centered her thoughts on woman's duty in casting her vote in the November election. She gave a well informed talk on the merits of the Democratic platform, and of the League of Nations.

During her stay in Hardinsburg, she was the guest of Mrs. Sallie M. Beard, vice chairman of the Democratic Women's work in Breckinridge county.

Esbridge Introduced Kincheloe.

An ovation was given Mr. Jesse P. Esbridge, who formerly was a follower of the Bull Moose party, and who was selected to introduce the Hon. D. H. Kincheloe.

Mr. Esbridge, in his introductory speech, stated that he had been an ardent follower of the Bull Moose party because of its progressive ideas and since he hadn't a party he had become a strong admirer of Governor Cox for his advanced ideas and progressiveness. Mr. Esbridge congratulated the Democrats of Breckinridge county upon the notable gathering they had for their first rally, and expressed his appreciation of being the one chosen to introduce the Hon. D. H. Kincheloe, Congressman of the Second District.

Sees "Beauty, Age and Wisdom."

Mr. Kincheloe described the audience as representing "Beauty, Age and Wisdom."

He started out by relating some historical facts concerning the Democratic party, and stated it had been in existence for sixty-eight years.

Mr. Kincheloe informed his hearers that there were momentous questions to be settled at the poles in the November election, and that the issues at stake called forth the intelligence and earnest consideration of every man and woman voter.

Comparing the situation of today with that of 1907, Mr. Kincheloe pointed out the prosperity of the people in general. He said: "People who never before had more than a mere living are today railing the Democratic party because they have to pay an income tax. We have the Federal Reserve system which averted a panic during the war. And the Rural Credit bill to help finance the farmers has been a greater boon to farmers than they ever had. Then the Good Roads bill which appropriated the means to build 75,000,000 miles of road in the United States. The Federal Reserve, the Rural Credit and Good Roads bills are three measures that the Democratic Congress has given to the people of the United States and which have been the means of the great prosperity and of the progressiveness they have enjoyed."

Mr. Kincheloe said that for twenty years there was reported one bank failure in every 21 days. "In 1920 there have been no bank failures reported at all," he added.

On The League of Nations.

Concerning the League of Nations, Mr. Kincheloe regarded that as the most important issue in the coming election. He recommended that the document comprising the whole of the League of Nations be placed in every American home. He mentioned the round robin composed of the ten U. S. Senators, who scored the League of Nations and all of whom were men without sons with one exception, "and he had a peach of a job in the army," he concluded.

He also brought out the fact that the League of Nations was opposed by the big steel manufacturers in the East, men who had become rich by making war materials. In other words the opponents of the League were men who were looking for material gain and men who would as soon have war as not.

Mr. Kincheloe concluded his well founded speech with a word of appreciation for the soldiers. He favored

100 PER CENT CORN CROP IN COUNTY

Breckinridge is Third County in District to Lead in Corn Crop Tobacco is 85 Per Cent.

Breckinridge county's corn crop condition is 100 per cent, as reported in the September Crop report for Kentucky. Only three other counties in the District are over 100 per cent in corn crop condition and they are Union 108, Daviess 104, and Grayson 102. Hancock is 98 per cent, Meade 93 and Ohio 93.

Potato condition in this county is 97 per cent, tobacco 85 per cent and hogs on hand for fattening 67 per cent. Breckinridge has the best potato crop in the District and ranks with Hancock in tobacco conditions. Grayson county's tobacco is 91 per cent. The highest tobacco percentage in the State is in Powell 120. Logan county has 114 per cent corn condition which is the highest in the State.

Marvel of the Turf

This summer is remarkable in the annals of sport in that it has produced two living creatures whose performances in their respective fields have been so extraordinary that scarcely any older, looking back through the pink magnifying glasses of memory dares pretend to recall their superiors or even their peers. The more impressive of the pair, with all proper respect for Mr. Ruth, is Man O' War.

Every decade of the American turf has had its horse of the century. In turn the followers of the thoroughbred have placed on the throne a Hindoo or a Hanover, a Salvador or a Henry of Navarre, a Hamburg, or an Ethelbert, a Synobly, or a Colin. Most of these horses were really great, and they still will be admired; but the performances of the finest three-year-old of today have been so magnificent that the ancients hesitate to suggest that Man o' War could not have beaten Colin.

Time measures the speed of a horse, but not always his racing qualities; yet when Man o' War, under stake weight and without pace, whip or spur, runs a mile and a half faster than ever horse ran that distance before, and then goes on to run the thirteenth and last furlong of the Lawrence Realization in 12 seconds—why, then, his gameness in a race being acknowledged there is no question of his incomparability.

The son of Fair Play seems to have everything. As quickly in motion as Domino, as sturdy and strong as Hamburg, as courageous as Henry of Navarre or Irish Lad, as kind as Imp or Colin, as enduring as Ben Holladay, as popular as Yo Tambien or Peter Pan, and nearly as handsome as Inferno—there stands the true horse of the century—N. Y. Sun and Herald.

HELP CLOSE THE DANGEROUS ROAD

ORDINATION OF B. C. S. DeJARNETT

By Rev. E. B. English.

Not since its organization in 1887 has the Hardinsburg Baptist church witnessed such a day as was Sunday, August 29, when Byron C. S. DeJarnett, son of Mr. and Mrs. S. T. DeJarnett, was ordained to the Gospel Ministry. This church, as well as New Bethel church, where he was converted, feel very proud in sending out into the world one of their boys on the greatest mission ever given to mortal man. There were good crowds present at all of the three services, despite the fact that it rained.

We were very thankful and fortunate indeed in having with us Brother DeJarnett's roommates from Georgetown College, Rev. Marvin Adams, of Bardstown and Rev. R. D. Martin, of Owensboro. Also Brother C. F. Beagle, of Butler, Ky., was with us. He is a faithful christian worker. Rev. Adams and Rev. Martin are Seniors in Georgetown College and are excellent young ministers. We appreciate their sermons very highly.

The ordaining council was composed Rev. E. B. English, pastor of the Hardinsburg church; Rev. Marvin Adams, of Bardstown; Rev. R. D. Martin, of Owensboro; Brother C. F. Beagle, of Butler; Brother Minor Compton, of Garfield church; Brother C. J. Cox, of New Bethel church; Brother L. D. Fox, Brother S. T. DeJarnett and Brother W. C. Moorman, of Hardinsburg church. This council, after a thorough examination recommended the candidate to the church for ordination and the church unanimously voted to ordain him.

The examination was conducted at eleven o'clock by Rev. English, who in one hour and a quarter covered the doctrines thoroughly, and the candidate showed a sound knowledge of the faith.

Sunday afternoon at three o'clock the candidate gave a beautiful testimony of his conversion at New Bethel church at the age of eleven and of his call to the ministry at Georgetown at the age of nineteen. Rev. Martin very appropriately delivered the charge to the church, in which he told the church to hold up the hands of the candidate by prayers and encouragement. Rev. Adams preached the ordination sermon which was very suitable and much appreciated by all. Rev. Adams is a splendid speaker and thinker. His subject was "The Ministerial Sower," the text being Psalm 126 6—"He that goeth forth and weepeth, bearing precious seed, shall doubtless come again rejoicing, bringing his sheaves with him." He also preached a fine sermon on Saturday night on "Faithfulness and It's Reward." Rev. English prayed the dedicatory prayer.

Sunday evening Brother Beagle presented the Bible to the candidate as his guide-book, with some good sound advice as to its use. Rev. English delivered the charge to the candidate, forcibly setting forth many fine things in connection with his calling, backing them all up with scripture.

Rev. Martin delivered a splendid sermon on the vital theme "Give God a Chance," using the text Malachi 3 10. Rev. Martin is a fine speaker and thinker.

BRIEF LOCAL ITEMS

Mr. John Lively brought to The Breckinridge News office last week a remarkable bunch of tomatoes, on one stem there were ten large size tomatoes. They are the yellow variety.

Miss Josie Raitt, who is employed in the grocery department of J. C. Nolte & Bro., store, is having a month's vacation. Miss Elizabeth Allen is filling her place.

Miss Evelyn Hicks has returned from Louisville, where she has been to purchase her fall millinery goods. Miss Hicks has with her again this year, Miss Mary Inman, who was the popular trimmer last spring.

Geo. Powell, an ex-soldier, has opened a first class meat market in the West End of the city. Powell was given a disability discharge from the army and a cash compensation paid through the local Red Cross chapter. He has purchased a home in the West End and is now in business for himself.

Cloverport was visited by a heavy rain storm Saturday afternoon. This makes the twelfth Saturday it has rained in succession.

Out one mile from Hardinsburg, Saturday afternoon, during the severe rain storm there was a downpour of hail with pieces as large as hen eggs falling. There was not enough hail to seriously damage the tobacco crops.

THE OLD RELIABLE **FOR FIFTY YEARS**

CARRIED "HON-ESTY" TOO FAR

Trusted Clerk Rather Overdid It, and Lost the Confidence of His Employer.

Cash registers became an institution as a means of compelling honesty among employees handling money. There was a time when their installation was taken as an affront by every clerk concerned, but a new generation has accepted them as a matter of course. That they still have their use in the original sense, however, was demonstrated recently by one employer—a grocer—who was telling his story over the counter the other evening to a belated customer.

"Last summer," the grocer said, "my family was living down at the beach and I used to leave early in order to get down there for a late dinner. I had a clerk that I trusted to look up and put the money in the safe. Naturally the cash register would show in the morning what he had rung up."

"For a few days I thought it was working fine. He was a good clerk and I thought he was honest. Then when I got to thinking about it I decided he was too—honest. For ten days that register and the cash agreed to a penny. Now that's better than I could make it do myself. It ain't natural."

"Then I decided to try a little scheme. Just before I left I rang up \$2.75 on the register and put nothing in the till. Next morning the cash and the register agreed as usual. That was enough for me. Any man who is so honest he will make up mistakes out of his pocket must have plenty of money to do it with."

"No, he isn't working for me now."—New York Evening Sun.

ISN'T THAT JUST LIKE A MAN

Titus Tiberius Smith was careful to give offense to no one, especially his wife. She was a masterful woman. Her home was her idol.

Titus Tiberius always opened the door with his handkerchief, lest his fingers should sully the brilliance of the brass knob.

"Titus," she said one evening, as he sank wearily into a chair, "I can read you like a book. You've been doing something wrong! Did you scarp your boots before entering the hall?"

"Yes my dear."

"Then what have you done?"

Titus blushed to the roots of his hair and clasped his shaking knees.

"Gladys," he stammered, "I hung my hat up carelessly, and a raindrop fell from it on the umbrella stand!"—Houston Post.

McADOO OUT SQUARELY FOR DRY UNITED STATES

New York, Sept. 8.—Modification of the Volstead act to permit the sale of light wines and beer would ultimately destroy the entire prohibition amendment, William G. McAdoo, former secretary of the treasury, declared in a prepared statement made public tonight. He added he believed "a modifying clause would make every lunchroom, drugstore and soda fountain a saloon, encourage youth to drink and bring a curse on the country greater than war."

WATER FROM HOLY LAND BROUGHT OVERSEAS.

Provincetown, Mass.—At the exercises on Town Hill this afternoon Pres. John H. Finley of New York State University appeared with a canteen slung by his side. It contained water which Pres. Finley said he had scooped from the River Jordan when he entered Jerusalem with Gen. Allenby's British troops. The water was poured into a basin and given to Rev. John L. Sewall, summer pastor at the Church of the Pilgrims, to be mixed with water from the Pilgrim Spring here and used for baptisms in the church.

COAL CAR SHORTAGE IS MORE ACUTE THAN EVER.

Madisonville, Ky. Sept. 9.—Although the car shortage is more acute than it has ever been in the history of the western Kentucky coal field, there is no immediate relief in sight. Operators are unable to operate their mines more than one-fourth of the time because of the inadequate car supply. Information received here is that railroads are storing coal in expectation of a strike and that is one reason there is such a car shortage.

MEXICAN ONYX

When waters charged with carbonate of calcium derived from limestone are allowed to evaporate they deposit masses of the carbonate, some of which are of great beauty. This process can be observed at many warm and "petrifying" springs and also in limestone caverns where stalactites and stalagmites are being formed, according to the United States Geological Survey. Mexican "onyx" is formed in this way. Its variations in color and texture, which make it attractive and valuable as an ornament, are commonly produced by impurities or inclusions, such as oxide of iron, or even mud and clay.

DON'T LIKE "FRONT PORCH"

Washington.—Reports from Marion Ohio, are to the effect that the front porch campaign idea is not making a big hit with the newspaper correspondents assigned to cover the activities of Senator Warren G. Harding, Republican candidate for President. Frequent shifts in the assignment have been made by the press associations and the specials at the urgent request of the newspaper men who have not found rustication in Marion a joyous existence.

GOVERNMENT GUARANTEE CEASES

Railroads Are on Their Own Resources. Guarantee Expired August 31.

Washington, Aug. 31.—Estimated to have cost the Government \$100,000,000 monthly for the past six months, the guarantee of transportation act which guarantees earnings to railroads of the country passed to be effective at midnight tonight, and the roads again will be on their own resources. Further loans from the Government, however, will be available from the revolving fund created by the act.

Notwithstanding the widespread impression that the railroads were turned completely over to private ownership on March 1, last, the fact is that the Government has held on to the funds of the roads till now, the railroad officials having been since that date mere trustees as far as handling the money went.

In a technical sense the Government has been receiving the funds and paying the bills while guaranteeing that the earnings of the companies shall be the same as during the trial

period used as a basis for the earnings during Government control. From now on the railroad managements will be free agents of the stockholders. The increased railroad rates, now in effect, were intended to relieve the roads when the Government guarantee expired.

Definite information as to the cost to the Government of guaranteeing the earnings is not expected for some time. The Bureau of Economics has estimated, however, that the earnings of the railroads during the six months since the Government returned the management of the roads to their owners is \$800,000,000 below their standard return. Most of the roads have certified to deficits in the last six months and have asked for advances under the guarantee clause of the law.

PAPER CLOTHING SHOWN: MADE IN AUSTRIA.

Washington, Sept. 7.—Paper clothing and other articles made from paper in Austrian factories were placed on exhibition today by the Department of Commerce. Later the exhibit will be offered to clothing and other interested manufacturers for examination.

The exhibit includes workmen's suits, a table cover, collars and cuffs, a laundry bag and a wall decoration. One paper suit is quoted at 32 crowns or about 15 cents in United States currency, while another sells for 120 crowns, or about 55 cents. In the exhibit is also a suit made of 40 per cent, paper, which in Austria sells at 575 crowns, or about \$2.65 in American money at the present rate of exchange. The garments are washable.

A FOOL AT 40

It is an old proverb that every man is either a fool or a physician at 40. Well, I fooled along for 40 years in the practice of pharmacy and the study of medicine and therapeutics before I discovered the wonderful prescription for Number 40 For The Blood. There is more of this wonderful prescription sold and used by the citizens of our home city than all other blood medicines combined. It is indicated in all depraved conditions of the system. In blood troubles, in sores, ulcers, eczema and skin diseases. In chronic rheumatism, catarrh, constipation, stomach, kidney and liver troubles. J. C. Mendenhall, 40 years a druggist.

Houston, Texas, Jan. 22, 1919. J. C. Mendenhall, Evansville, Ind. Dear Sir: "Having suffered from 12 to 18 months with a nervous breakdown,

said by physicians to be sciatic neuralgia, causing general toxic poisoning, and seeing your advertisement in the San Antonio Express, I called on Dr. A. M. Fisher, Druggist. He recommended your prescription Number 40 which I have been using for three months and I have received great benefit from it. Sleep well, good appetite, have gained several pounds in weight, get up feeling fresh every morning. Have no pains. My nervous system has become nearly normal." Respectfully, J. L. Dupree, 1715 Common Street. The best druggist in your neighborhood sells Number 40, but if it happens that he does not, send direct to J. C. Mendenhall Medicine Company, Evansville, Indiana, and receive it delivered to you at \$1.25 per bottle, six bottles for \$7.00.

SWITCHMAN GIVES FACTS TO PUBLIC

Was Going Down Hill So Fast He Became Alarmed—Lost Forty Pounds in Six Weeks.

"The best proof I can give that Tanlac was the right medicine for me is the way it has relieved my suffering and is building me up," said James H. Johnson, for ten years a switchman for the K. & I. Railroad, living at 1725 Cap St., Louisville, Ky., a few days ago.

"Yes, sir, I was in an awful fix with my stomach all out of order and my kidneys worrying me day and night. I had to be careful about what I ate and often I was so nauseated I couldn't retain a thing on my stomach. I would bloat all up with sour gas and I had the worst sort of gnawing pains in my stomach. My kidneys bothered me continually and what little sleep I did manage to get was so restless I hardly knew I had ever been to bed at all. I actually fell off forty pounds in six weeks time and was going down hill so fast it alarmed me. I tried everything anybody told me but I got worse instead of better and I was about ready to give up in despair.

"But one day I saw a railroad man who was suffering like I was had tried Tanlac and was well pleased with it, so I began taking it and it gave me the finest kind of appetite. Then the indigestion left me and I started picking up in weight. And now in little more than a month's time I have already gained back fifteen pounds of my lost weight and I am still gaining right along. My kidneys don't bother me any more and I can sleep like a top all night long. I am feeling fine and the way Tanlac has built me up in nothing short of remarkable."

Tanlac is sold in Cloverport by Wedding's Drug Store, in Kirk by Mattingly Bros., in Addison by L. D. Addison, and in Ammons by Wm. H. Dutschke.—Advertisement.

FIRST UNITED STATES COINS

"Fugios," Made of Copper, Were the Earliest Issued by Direct Authority of Congress

The "fugios" were the earliest coins issued by the authority of the United States, and were of copper. It was in April, 1787, that the congress of the United States authorized the board of treasury to contract for 300 tons of copper coin of the federal standard "agreeably to the proposition of Mr. James Jarvis, provided that the premium to be allowed to the United States on the account of the copper contracted for be not less than 15 per cent," and that "it be coined at the expense of the contractor, but under the inspection of an officer appointed and paid by the United States."

It is presumed that this copper coin contract was made as directed for on Friday, July 6, 1787, the congress adopted this resolution: "That the board of treasury direct the contractor for the copper coinage to stamp on one side of each piece the following device, viz.: Thirteen circles linked together and a small circle in the middle with the words 'United States' around it, and in the center the words, 'We are one.' On the other side of the same piece the following device, viz.: A dial with the hours expressed on the face of it, a meridian sun above, on one side of which is to be the word 'Fugio' and on the other side the date '1787'; below the dial the words, 'Mind your own business.'"

DETERMINES FEED NEEDED FOR HOGS IN TRANSIT

The minimum feed requirements of hogs in transit have been determined by the United States Department of Agriculture as follows:

Not less than 2 bushels of shelled corn or its equivalent in ear corn or other grain per single deck of not more than 17,000 pounds weight and not less than 2 1/2 bushels of shelled corn or its equivalent in ear corn or other grain per double deck of not more than 21,000 pounds weight. Carload lots of hogs in excess of these weights should be fed an additional amount in the same proportion.

Where amounts very greatly in excess of those specified are fed it is quite probable that feed will be wasted.

SEC. DANIELS BELIEVES COX WILL GET INDIANA.

Chicago, Sept. 9.—Secretary of the Navy Josephus Daniels spent a few hours in Chicago yesterday enroute east after a speaking engagement at Connersville, Ind. Many political leaders from western headquarters in the consumers building met the secretary who told them Indiana looks like a Cox state.

"The trend in the state is tremendously our way," Mr. Daniels said. "Senator Watson is showing evident signs of losing strength, and I expect to see a senatorial victory for the Democrats as well as the election of the Cox and Roosevelt electoral ticket."

"On the League of Nations the Democrats are going to carry thousands of thousands of women's votes." Secretary Daniels left last night for Maine, where he is booked for several speeches.

ESSENTIALS IN MARKETING.

One of the first essentials to satisfactory marketing arrangements is standardized products. Cans, jars and other containers should be uniform in pack, appearance, quality, and condition. Every container which is fully up to the standard represented by the label or brand will then be an advertisement in itself and often a guarantee to further purchases.

TWELVE 16-INCH NAVAL GUNS ORDERED.

Midvale and Bethlehem Companies Get Contracts.

Washington, Sept. 7.—Award of additional contracts to complete the 16-inch gun programme required for arming the six 43,000 ton dreadnoughts and six battle cruisers now under construction, was announced today by the Navy Department.

Contracts for six 16-inch guns each were awarded to the Midvale Steel Company at \$250,000 a gun and to the Bethlehem Steel Company at \$257,500 a gun. The latter company also will furnish four sets of 16-inch gun forgings, while a contract for 18 sets of 6-inch gun forgings was awarded the Erie Forge Company.

With the Midvale and Bethlehem companies each having previously contracted to furnish twenty-four 16-inch guns, in addition to ninety to be turned out by the naval gun factory at Washington, the contracts awarded today complete the programme of 150 16-inch guns required for the great fighting ships now building. While their armament actually calls for only 120 of the big guns, thirty are being built as spares.

The twelve warships will not be completed before the latter part of 1923, according to the present programme, but it is necessary, it was said, that the guns be finished and ready for installation a year before the ships are completed.

"KICK55 IS TO BE EXTRACTED FROM VANILLA EXTRACT

Chicago, Sept. 9.—Members of the American Chemical society, which is holding its annual meeting here, heard today that the "kick" is to be taken from lemon and vanilla extracts. This is sad news for the parched round hum who no longer will be able to avoid the eighteenth amendment by mixing a lemon extract cocktail and acquiring a perfumed jag.

Dr. M. de Grote, of the University of Pittsburgh, told of the new "kickless" extract in a talk before the society today. "By substituting glycerin for alcohol, we not only get a better flavoring extract, but a cheaper one," he said. "The high percentage of alcohol in these extracts made them a convenient if dangerous substitute for whisky. While some will deplore this discovery and possibly not approve of the glycerin content, they will have to yield to the advance of chemical science."

NO SIGNS OF RETURN OF INFLUENZA EPIDEMIC

Washington, Sept. 9.—There have been no indications of a return of last year's influenza epidemic this winter, the public health service announced today. Each year it was said, between November and May, a number of cases are reported but experts of the service do not expect the disease to be as widespread or as violent this year as in 1919.

SHORTAGE SCHOOL BOOKS IS MENACE

New Compulsory Attendance Law Expected to Boost Attendance to New Record.

Frankfort, Ky., Sept. 30.—Failure to get textbooks enough for distribution is worrying State Superintendent George Colvin, who said reports received from counties on the first test of the new compulsory attendance law show 90 per cent of the children in school.

Some county teachers have 100 pupils. Practically all the schools are supplied with teachers, but many have more pupils than they can teach successfully, and housing facilities are inadequate. This condition, coupled with elevation of the minimum school rate, is expected to expedite consolidation of schools.

At Superintendent Colvin's request, Attorney Gen. Chas. I. Dawson has written publishers that unless they comply with their contracts by supplying sufficient books immediately suit will be instituted to forfeit their bonds of \$10,000.

Principal difficulty is with the Mac-Fillan company, publishers of geographies, who write that they have delayed publication of more books to get in the latest European maps; the D. C. Heath company publishers of the Heath readers, who replied that they had supplied 10,000 more copies last year than the Central School Supply company estimated; and the Iroquois Publishing company, publishers now of the spellers, who insist that

there are 79,000 undistributed copies of the speller somewhere in Kentucky now.

Some dealers have sent to other state and obtained their supplies.

"I Got Real Mad When I Lost My Setting Hen," Mrs. Hannan.

"I went to the hen house one morning and found my favorite setter dead. I got real mad. Went to the store, bought some RAT-SNAP and in a week I got six dead rats. The Dependable Tractor that Burns Kerosene Completely

The 12-25 H. P. Waterloo Boy Tractor is just the kind of machine that we like to put into the hands of our customers.

There is nothing experimental about it. Its dependability has been fully proved in years of service on the farm. Every time we sell one, we feel the assurance that the owner is going to get fully satisfactory service from it. And that means a great deal to the future of our business.

Right along with its dependability for long-continued good work, there is another big feature that you will appreciate every day you use the Waterloo Boy.

It burns kerosene completely. Its patented kerosene manifold—one that you can get on no other tractor—converts all of the low-priced fuel into a highly-combustible gas, enabling the engine to get full power from every drop.

That saves engine trouble—no kerosene gets into the lubricating oil. There is no carbonizing of cylinders or fouling of spark plugs.

And it saves many dollars in fuel cost every year of its operation.

You are sure to like all of the Waterloo Boy's other features. It is simply made; easy to keep in good running order. The working parts, fully protected from dust, are placed where you can easily get at them, whenever necessary, through inspection plates and detachable casings. The engine, perfectly balanced and mounted on a solid foundation, runs without vibration—no racking of mechanism. Gears are steel-cut and case-hardened—practically everlasting. It is equipped with Hyatt Roller Bearings, famous throughout the world for conserving full power. All bearing points and gears are kept constantly in a bath of oil by a positive system of lubrication.

Be sure to come in some day soon and get fully acquainted with the Waterloo Boy.

TWO OF LARGEST INSURANCE CLAIMS OF KY. PAID IN THIS COUNTY

Roy E. Moorman and W. H. Bowmer Carried Largest Policies. \$58,000 Paid to County.

Of the life insurance policies paid to Kentucky beneficiaries in 1919, \$16,000 came to Cloverport, \$42,000 to Hardinsburg, and in Meade county, \$13,000 to Guston and \$17,000 to Brandenburg, according to an annual summarization issued by the Insurance Press, New York City.

A tabulation of the largest claims paid in Kentucky gives the following: Cloverport—William H. Bowmer, \$10,000; Hardinsburg—Roy E. Moorman, \$12,130.

Among the largest payment made in the State was one of \$7,500 on the life of Mohr Michael of Paducah.

Life insurance distributions in the United States and Canada in 1919, the Insurance Press figures show, aggregated \$1,843,500,000.

To Republican Women Of Breckinridge County.

(Continued From Page 1)

community and state. The amount of work and wise organization which women achieved during the war is still a marvel. We must not be slackers now when the terrible burden of reconstruction sits so heavily upon the nation. The Republican party invites your active co-operation in its councils and its efforts at sound constructive government. Statistics and the Congressional record confirm the assertion, that the Republican party has accomplished more for women and children in industry, school attendance and the interests that safe guard the home than has the Democratic party. I believe it to be the party of constructive legislation and 100 per cent Americanism.

As for the logical conservator of the human race, woman hates war. For that reason she will hesitate before she casts her vote for a party which supports a League of Nations which commits us in Article X, "To preserve against external aggression the territorial integrity and existing political independence of all members of the league."

We can but be thankful that the Senate refused to ratify an act which would involve us in the perils of foreign controversy and bloodshed and

would send American soldiers and sailors to fight and die in every quarter of the globe, for causes that are foreign and interests which are not ours. I call upon all Republican women and upon any Democratic friends who may see it as we do to aid us in striking a blow against all un-American policies.

For this cause we want a large Republican majority in Breckinridge county.

Mrs. Nannie Jolly Wathen, Irvington, Assistant Chairman Republican Campaign Committee, Breckinridge County.

FRIDAY, SEPT. 24, ORCHARD DAY

Farmers To Visit Demonstration Orchards in Hardinsburg and Harned.

An orchard field day to be held at the demonstration orchards, near Hardinsburg and Harned on Friday afternoon, Sept. 24. These orchards have been pruned and sprayed under the supervision of the County Agent and an Orchard Specialist from the Experiment Station. Previous to this year they were uncared for and were typical of the many orchards in the county which are at present not producing any fruit. Due to the care received this year, they are now bearing a splendid crop of almost perfect fruit.

The farmers will gather at noon on Friday and will visit the orchards and learn how these results have been accomplished. Everyone interested in orchards should attend this field meeting. The whole matter will be thoroughly discussed by experts from the Experiment Station, and many valuable points given on this line. Those having cars are especially urged to attend and bring others with them.
